About HEAd'16

After the great success of the first HEAd conference, which received submissions from 41 countries, we are pleased to announce the Second International Conference on Higher Education Advances (HEAd'16). This conference is an excellent forum for researchers and practitioners to exchange ideas, experiences, opinions and research results relating to the preparation of students, teaching/learning methodologies and the organization of educational systems.

More than 200 participants from all over the world are expected to present their latest and unpublished research findings. The program committee encourages the submission of articles that communicate applied and empirical findings of interest to higher education professionals.

The HEAd'16 conference will be held on June 21-23, 2016 at the Faculty of Business Administration and Management of the Universitat Politècnica de València (UPV), which has been recently ranked as the best technical university in Spain by the Academic Ranking of World Universities (ARWU) 2015.

Sponsorship opportunities

HEAd'16 offers you a number of ways to leverage your company's investment in a strategically significant community. A comprehensive, integrated suite of sponsorship opportunities allows you to choose the option best suited to your purpose.

The Audience

The main target audience for the conference is higher education leaders, managers, educators, ICT professionals and researchers. This demographic represents a niche market of consumers and decision makers.

Typical attendance profiles include:

- Academics and University Managers seeking up-to-date information and new ideas on strategies and products for educational innovation;
- Academics at all levels of appointment who are successful in their field and seek to share knowledge and strategies to further develop their career in the university and training sectors;
- Training professionals from the corporate, government and business sectors;
- Academics from specific areas who feel the need for more interaction with other university community members in examining the options for e-learning innovation;
- University central service providers charged with responsibility for Teaching Development, IT Management and Information and Knowledge Management.
