# PREFACE

Josep Domenech

Welcome to the Sixth International Conference on Higher Education Advances (HEAd'20) hosted virtually by the Universitat Politècnica de València, Spain during 2-5 June 2020. Despite the COVID-19 outbreak, this Sixth edition consolidates the series of HEAd conferences as a leading forum for researchers and practitioners to exchange ideas, experiences and research results relating to the preparation of students and the organization of higher educational systems.

The selection of the scientific program was directed by Paloma Merello, who led a team of 229 program committee members representing 50 countries in all five continents. Following the call for papers, the conference received 280 full paper submissions from 47 different countries. All the submitted papers were reviewed by at least two program committee members under a double-blind review process. Finally, 121 papers were accepted as full papers for oral presentation during regular sessions. Additionally, 42 submissions were accepted for presentation in the innovative non-linear sessions, which allow for increased interaction and participation. The program committee chair congratulates all the authors for having their papers accepted in the proceedings of such a competitive conference.

HEAd'20 also features two keynote speakers that overview important and actual topics: Dr. César Ortega-Sánchez (Curtin University, Australia) talks about understanding students' needs in the age of the Internet, relating this to the change in the learning process due to the mobility restrictions approved after the coronavirus outbreak.

The second keynote speech is delivered by Dr. Janet Lord (Manchester Metropolitan University, United Kingdom) dealing with the transformative leadership for equity, social justice and change in higher education.

This year, the second PHELC workshop is celebrated virtually together with HEAd'20. The symposium, led by Ann Marie Farrell and Anna Logan, focuses on giving insights into assessing large classes in higher education.

The organizing committee would like to thank all those who made this year's HEAd a great success. Specifically, thanks are indebted to the invited speakers, authors, program committee members, reviewers, session chairs, presenters, sponsors, supporters and all the attendees.

Our final words of gratitude must go to the Faculty of Business Administration and Management of the Universitat Politècnica de València for supporting, once again, the HEAd conference, making it possible to become a great event.

June 2020

## KEYNOTES

**WEDNESDAY 3<sup>rd</sup> 9:30 - 10:40**

**Plenary Room**

### **UNDERSTANDING STUDENTS' NEEDS IN THE AGE OF THE INTERNET**

**Cesar Ortega-Sanchez**  
**Curtin University**

Associate Professor Cesar Ortega-Sanchez is a Computer Systems Engineer from the Metropolitan Autonomous University in Mexico City. He obtained the degree of Master of Science in Digital Systems from Brunel University in London, and the degree of Doctor of Philosophy in Electronics from the University of York. He joined Curtin University in 2005 as Senior Lecturer of the Electrical and Computer Engineering Department where he taught courses in digital design and embedded systems. In recent years he has taken leading roles in teaching and learning at School and Faculty levels.

He is currently Academic Lead of the Engineering Foundation Year, the common first year of engineering serving 800+ student engineers every year.

He has supervised over 100 undergraduate and postgraduate theses and has published over 60 papers on Electronics and Engineering Education.

His research interests are in embedded systems, bio-inspired architectures, intelligent systems and engineering education.

He is a consultant in curriculum design, capstone projects, and first year experience. In 2015 he won a national citation from the Australian Office of Learning and Teaching for his outstanding work facilitating activities to improve students' employability skills.

## Session 3. Non-linear session I

Wednesday 3, 16:30 – 18:00

Virtual rooms: from 1 to 15

(VR1) Practicing 21st Century Skills in the Classroom

Meghan Perdue

(VR2) Shared learning between health sciences university students.

Teaching-learning process of hand hygiene

Montserrat Sánchez-Lorente, Enrique Sanchis-Sánchez, Ángela Olmedo-Salas,  
Nicole Victoria Zurita-Round, Pablo García-Molina, Evelyn Balaguer-López,  
José María Blasco-Igual

(VR3) Don't feedback in anger: enhancing student experience of feedback

Gareth Bramley, Kate Campbell-Pilling, Carl Simmons

(VR4) Interactive Classroom Methods for Science classes

Izan Catalán Gallach, Rodolfo Viveros Contreras, Juan Pedro Catalán Catalán,  
María José Gallach Vela

(VR5) The Digital Learning Laboratory Model to Catalyze Change in University  
Teaching and Learning

Jessica Sandland, Mary Ellen Wiltrout

(VR6) Effects of course coordination and part-time precalculus instructor support on student academic performance

Amir H. Golnabi, Eileen Murray, Haiyan Su

(VR7) Virtual Technologies possibilities for improving background knowledge of Civil Engineering Education

Olga Ovtšarenko, Daiva Makuteniene, Edgaras Timinskas

## WEDNESDAY 3<sup>rd</sup>

(VR8) A concept of a mainly digitalized course on control theory including problembased practical units and digital supported exams

Birgit Rösel

(VR9) Correlation between students' workload and attendance as related towards final grades: A case of study on Statistics for first-year Engineering students
